

[ACTIVE] Safety Systems

*Electronic Stability Control

Automatically intervenes when there is a high risk of directional instability that could lead to loss of vehicle control or rollover.

*Features available in Safety Suite package on select air brake equipped models.

*Collision Mitigation System

Available radar-based collision mitigation system provides active braking on moving and stationary vehicles.

*Lane Departure Warning

An available camera-based system that helps reduce road run-offs, side swipes, and head-on collisions due to driver inattention or fatigue through distinct audible warnings for unintentional lane departures.
